Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The preliminary amendment to the claims and the abstract filed 10/23/03 has been entered. Claims 1-11 are now pending.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,6 are rejected under 35 U.S.C. 102(b) as being anticipated by Goi et al 4,744,468. Goi discloses a recirculation type bank note receiving/dispensing apparatus with a bank note dispensing portion 5 and a depositing portion 4 disposed on the top side of the machine. See figure 1 and column 2 line 57 – column 3 line 3. There is a temporary storage portion 2 with an openable and closable door 2b through which the bank notes are passed. Further temporary storage is disclosed throughout. Instruction as to dispensing or collecting of bank notes is disclosed in column 6 lines 39+, i.e. occupancy instruction. It is noted that the depositing/dispensing port may be seen from the top and from at least two opposite sides, i.e. top front and top back.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Goi et al 4,744,468. Goi discloses that which is seen above. Goi does not disclose that the shutter 2b is transparent. Official notice is taken that transparent doors/shutters are old and well known. It would have been obvious to one of ordinary skill in the art at the time of the invention to use a transparent material for the shutter 2b of Goi. This would allow a user to view the inside of the drum for presence of notes being dispensed.

7. Claims 2-5,8-11 are allowed.

8. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach or fairly suggest, in conjunction with all the other limitations of independent claim 2, the upper structure and lower structure being configured to be drawable out from the front side of the machine body for the functional purposes as claimed.
